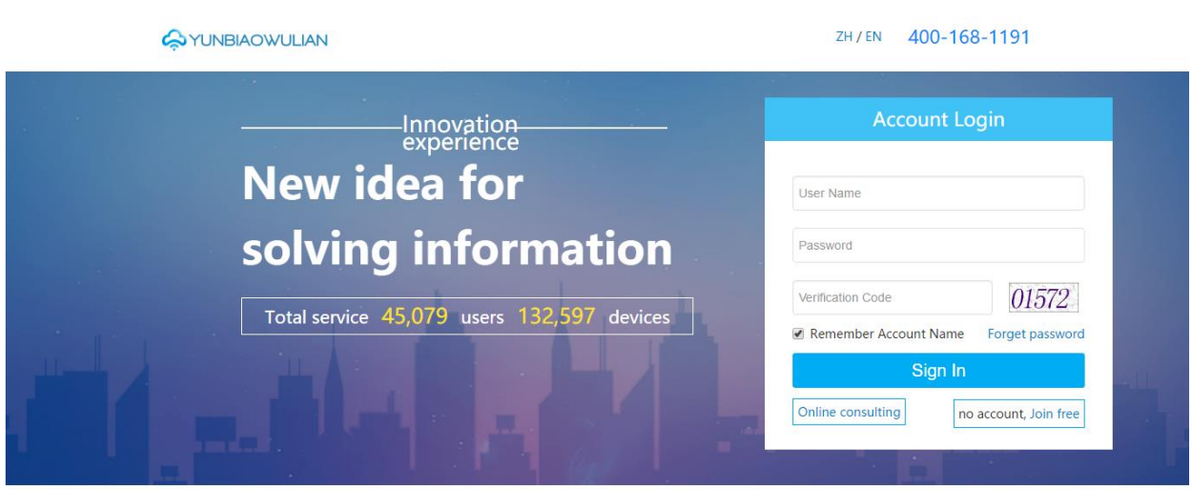
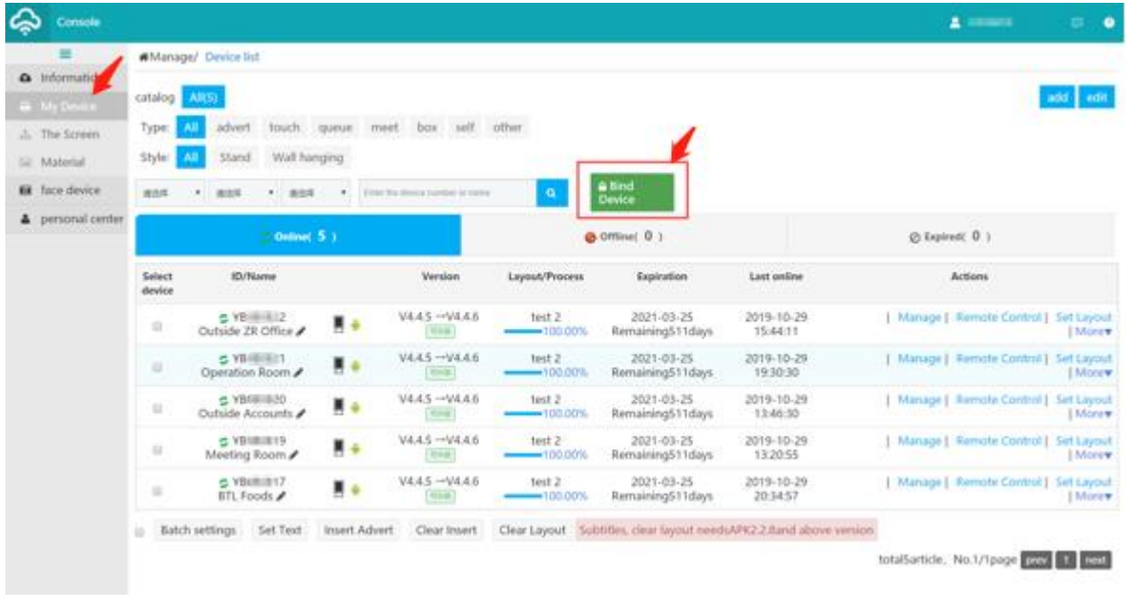
4 How to publish a layout

1 How to bind a device

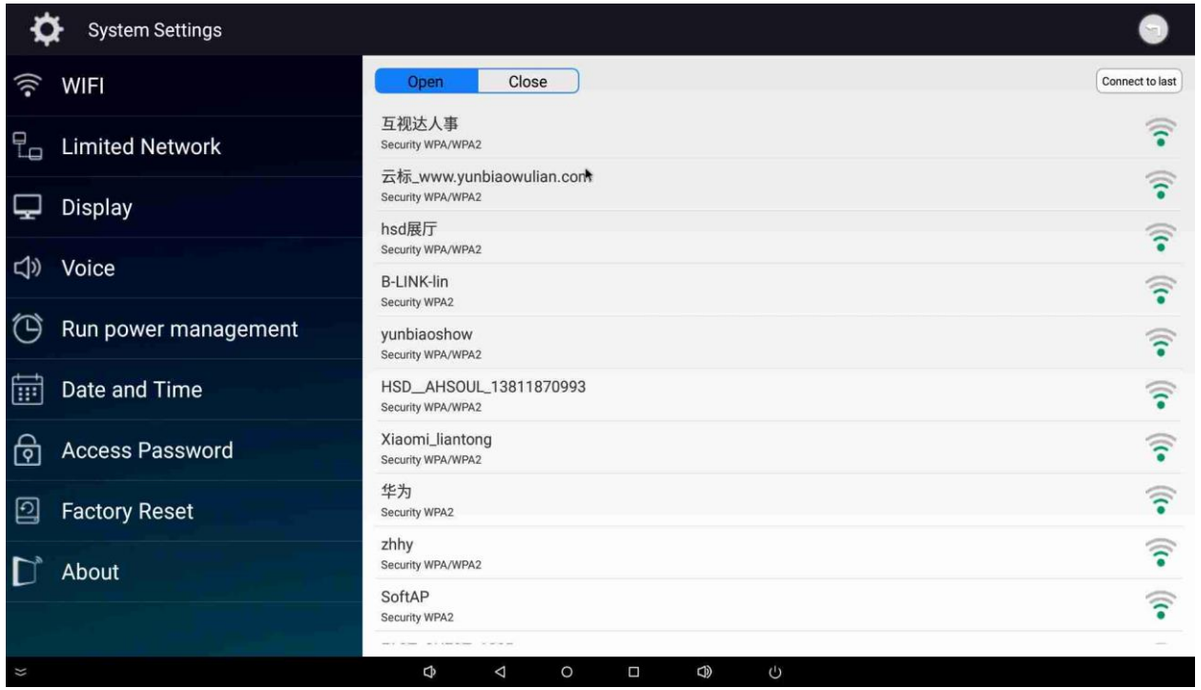


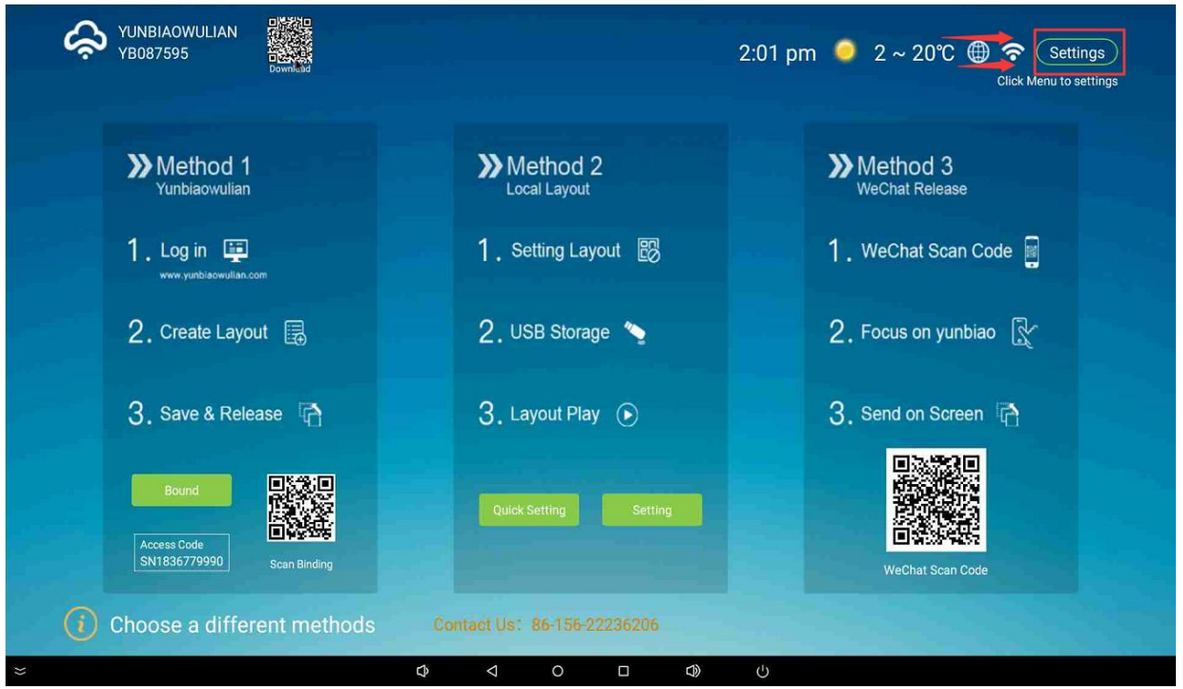


1.Register for YunBiao account

Link here:www.yunbiao.tv/background/login.html?lang=en_US

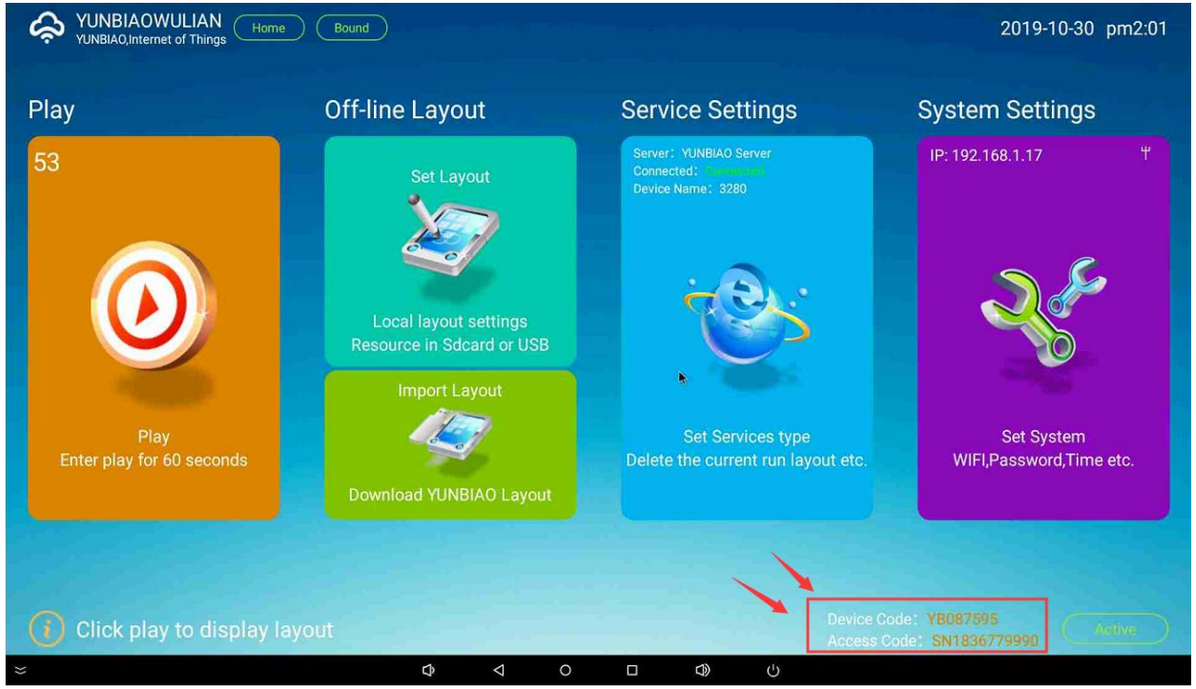
2. Log in to the online console, click on "Information", go to "My Device", click on "Bind Device", to bind the device.

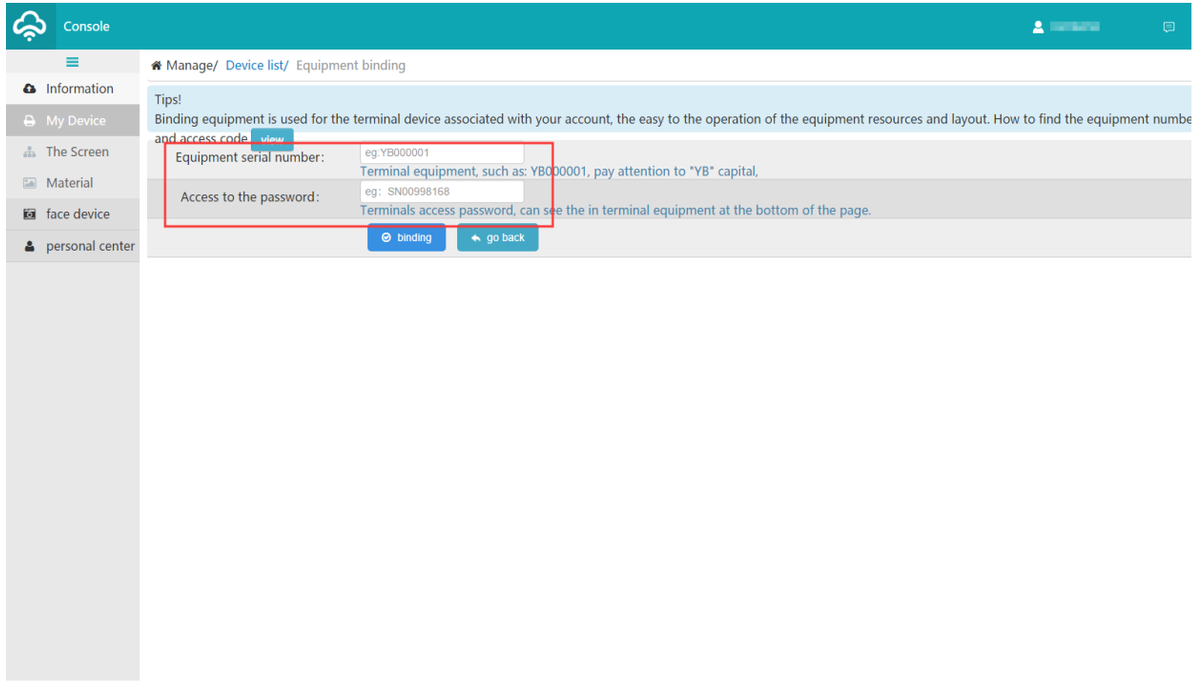




3. The device terminal needs to connect Wifi or access network cable

4. Click the YunBiao software on the device terminal. *This is the interface when the program is not playing. Next, click “Settings”.

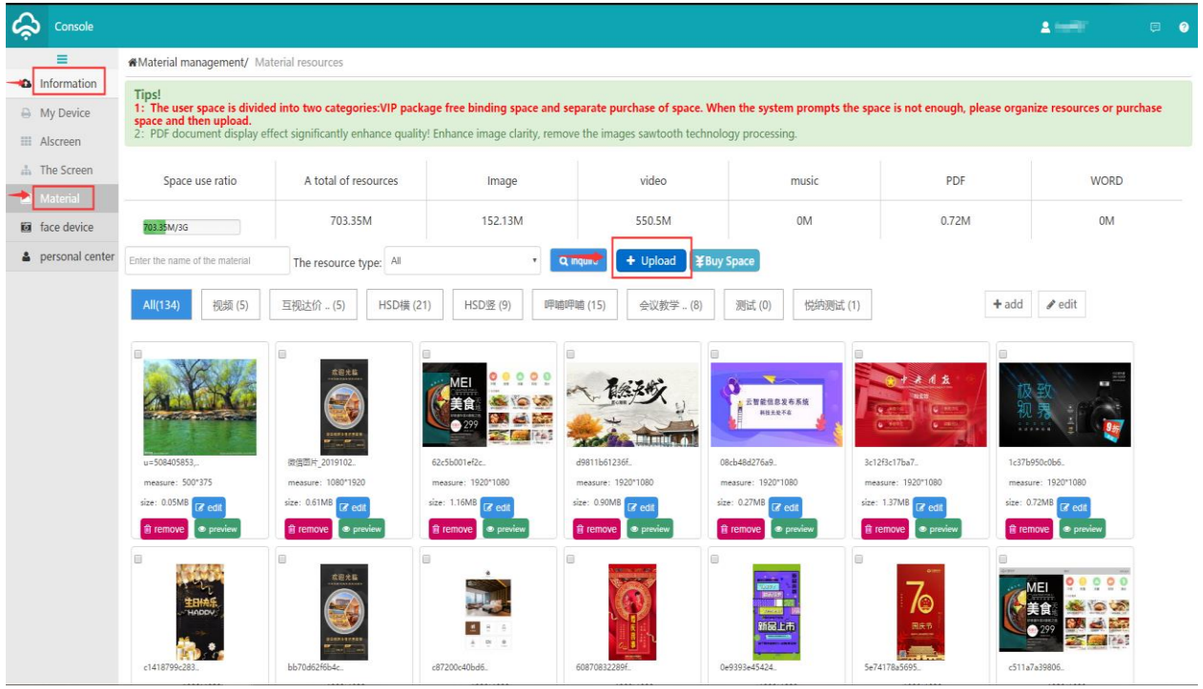


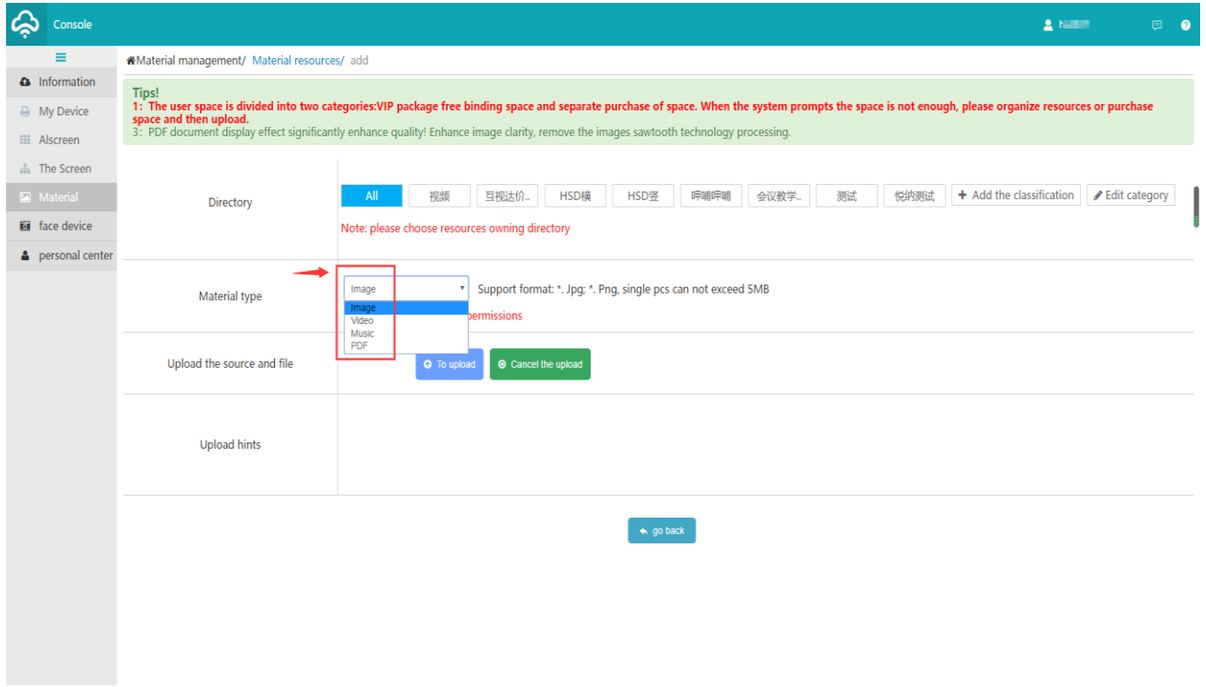


5. Enter the device side and find "Device Code" and "Access Code". (Each terminal device has its own serial number)

6. Fill in the "Device Code" and "Access Code" of the device terminal, click the "Binding" icon, and device will be bound successfully.

2 How to upload material

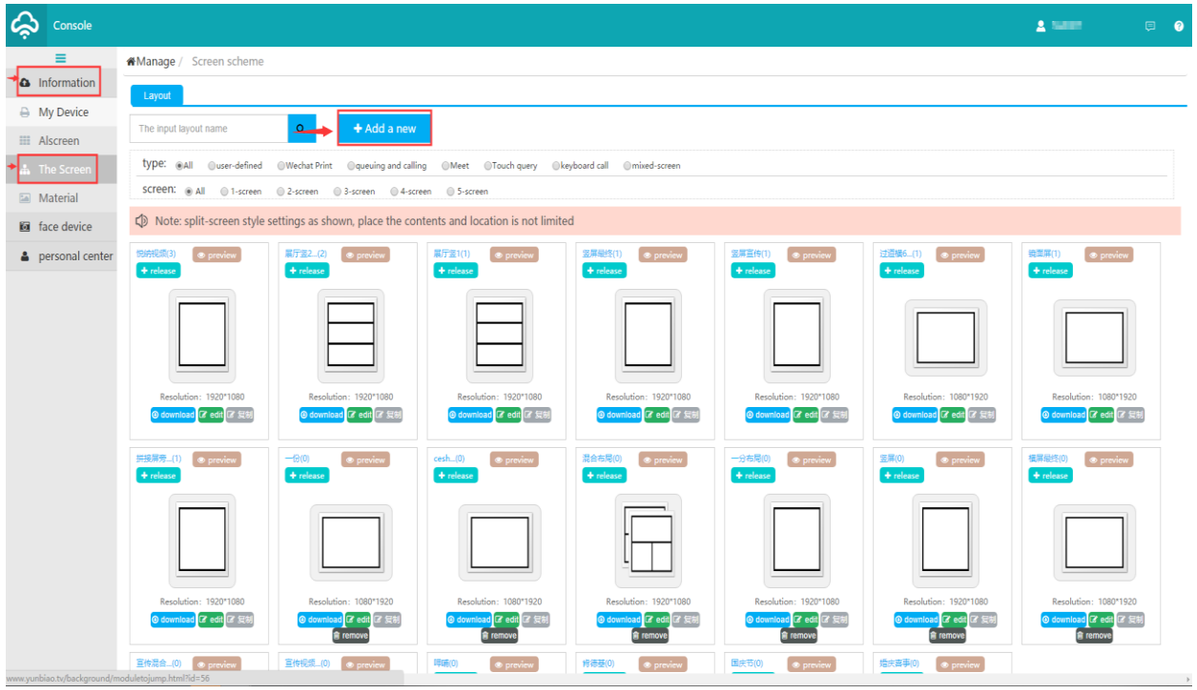


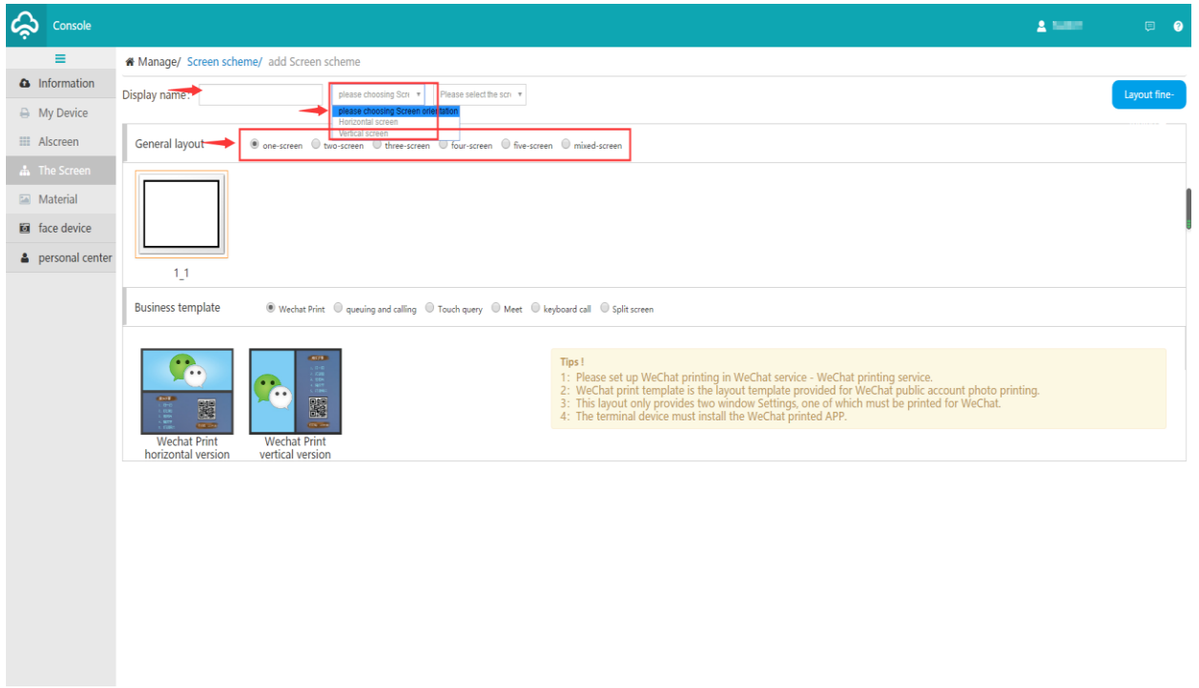


1. Log in to the online console, click on "Information", select "Material", click on the "+Upload" icon.

2. Select the type of resource you want to upload (Image/Video/Music/PDF), click to choose the file, select and upload the material.

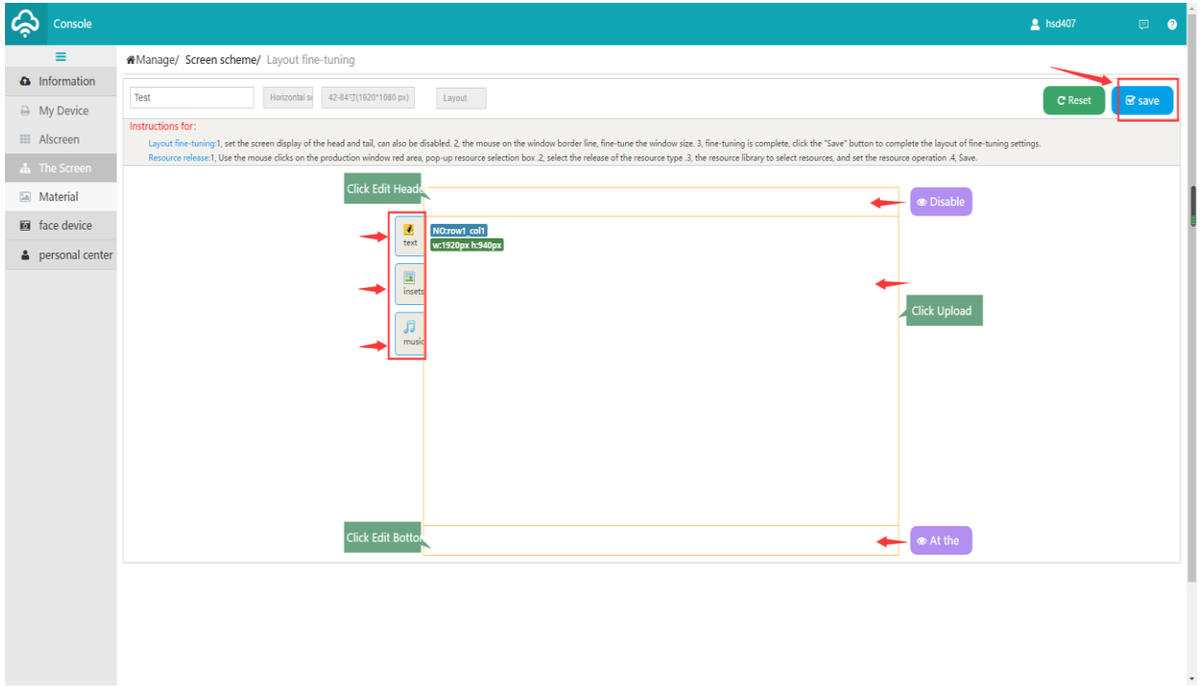
3 How to adjust the layout

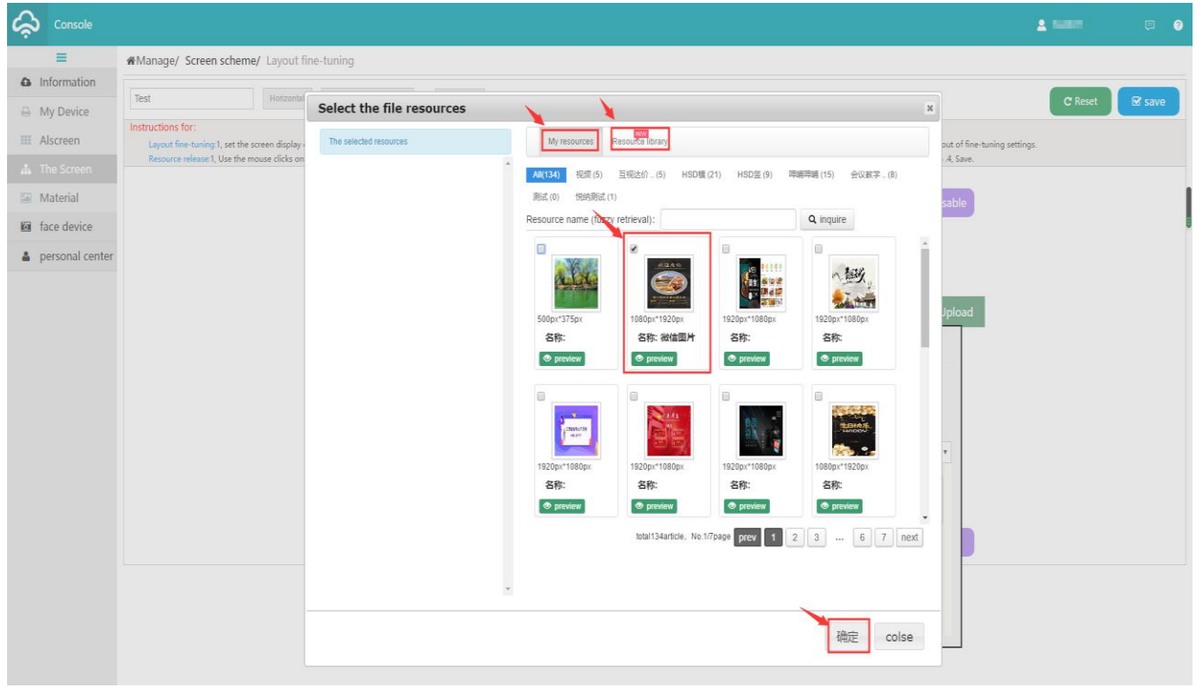




1. Log in to the online console, click on "Information", select "The screen", click on "+Add a new"

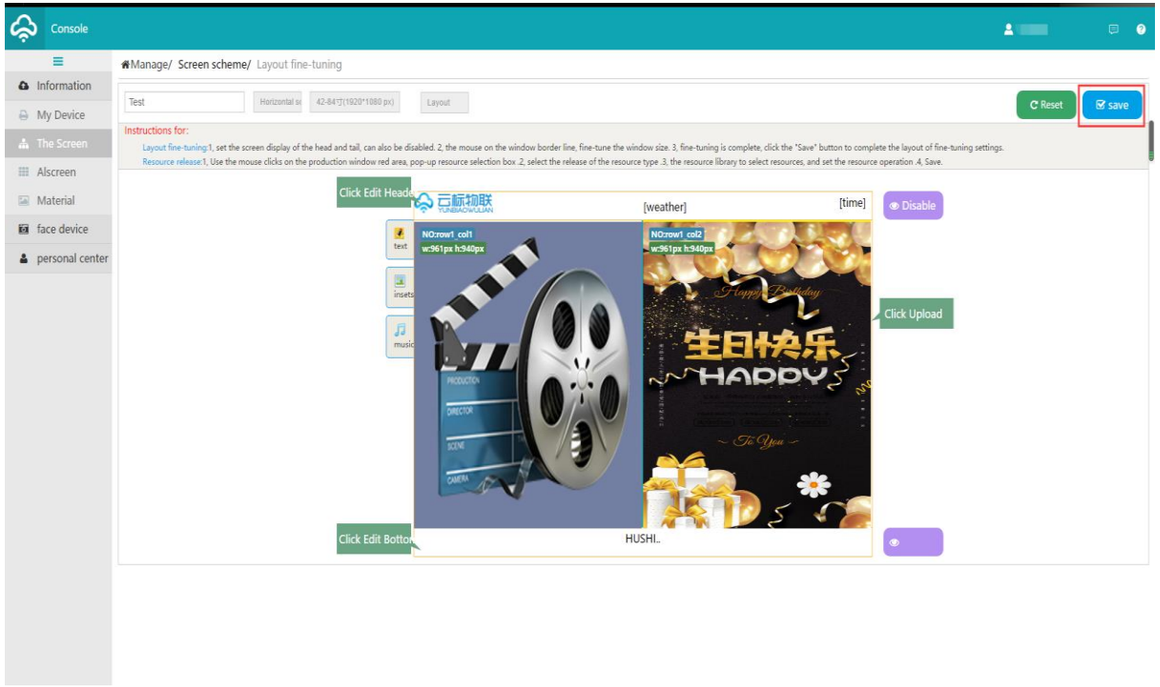
2. Select the type of resource you want to upload (Image/Video/Music/PDF), click to select the file, select the material, and then upload it.

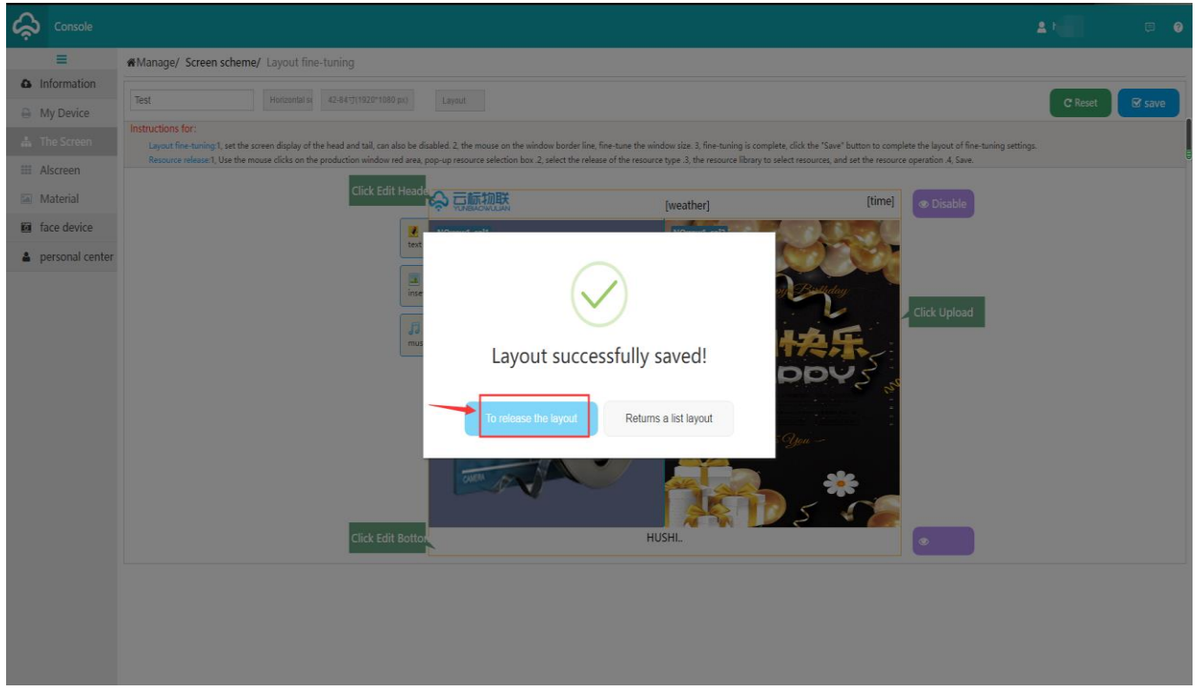




3. Click the corresponding area of the arrow to select the corresponding resource (you can choose to disable the header and bottom, the material needs to be uploaded in advance), click “Save”.

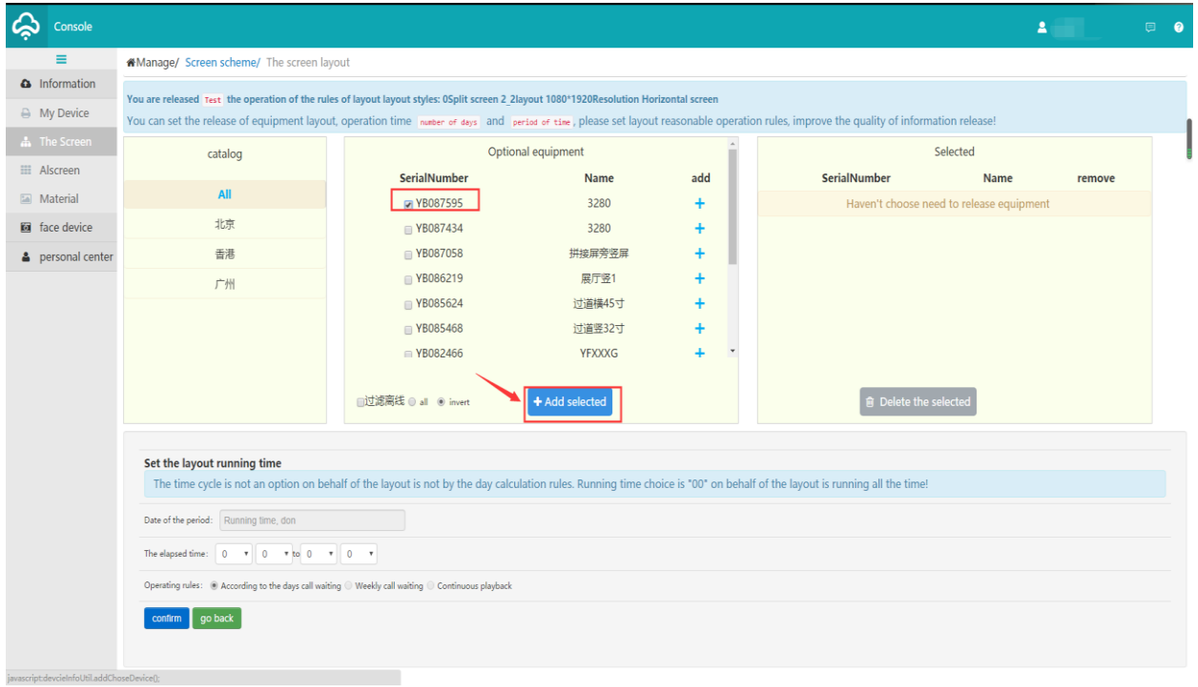
4 How to publish a layout



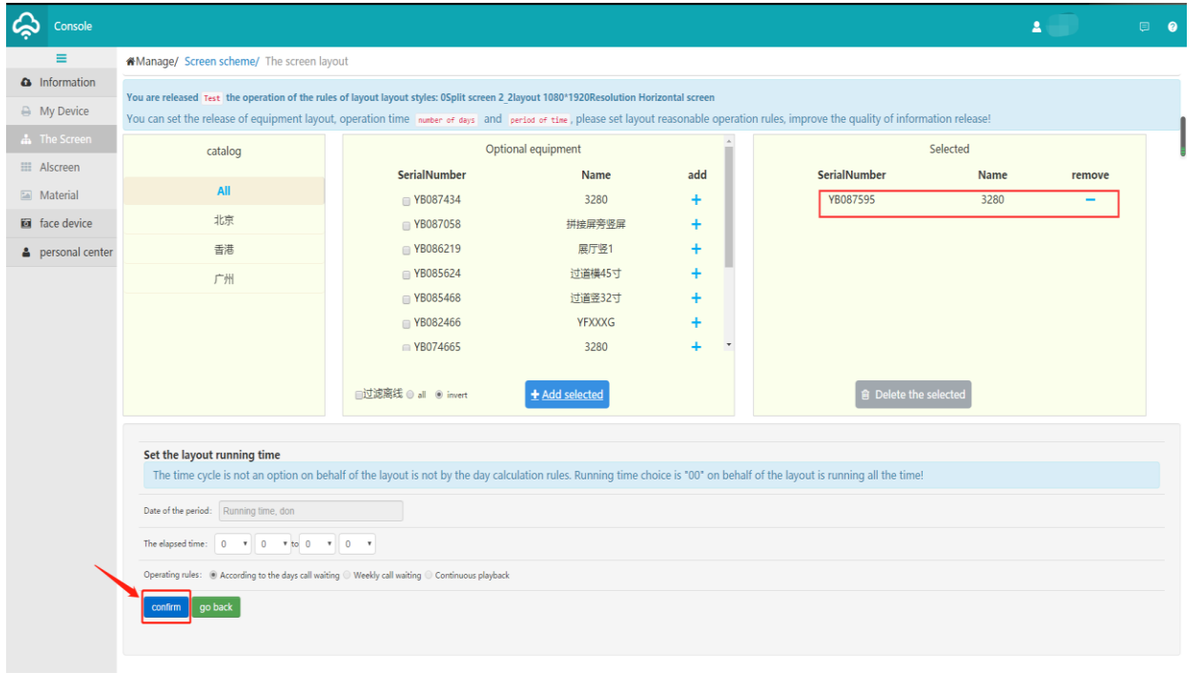


1. Click "Save" on the previous edited layout.

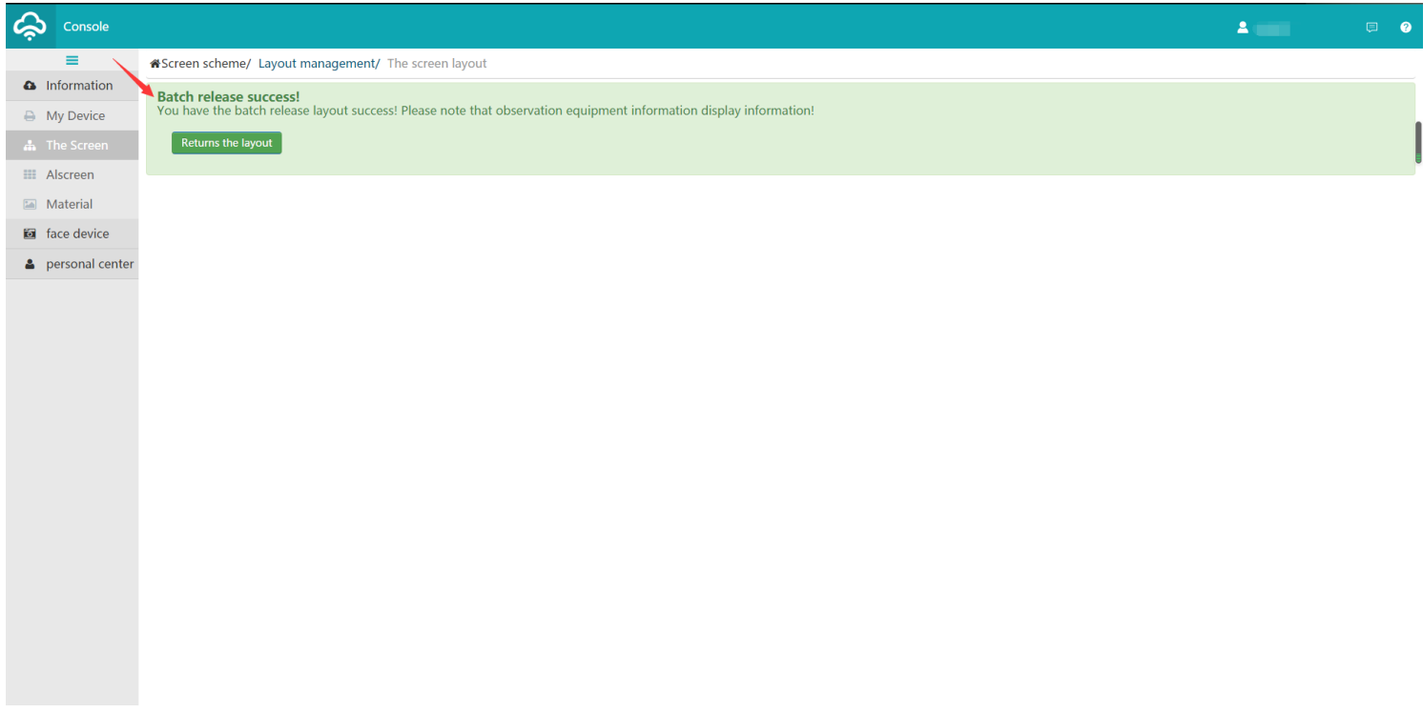
2. After saving the layout, click “To release the layout” in the pop-up prompt window. You can also select the layout you want to publish in the edited layout.



3. Select the specific device in the “Optional Equipment” and click "+Add selected"



4. In the selected list, the name of the device you want to play with will appear. Click the "Confirm" icon at the bottom.



5. This interface will appear when the layout is released successfully . The selected binding device will start to display the content of the editted layout .

THANKS!
